Bio

Lee Barwick is a highly skilled Technical Expert Witness and Commercial Manager with over 36 years of experience across the rail, construction, security, data centre, and critical infrastructure sectors. His expertise encompasses procurement management, contract negotiations, project management, commercial strategy development, and dispute resolution. Throughout his career, Lee has held key leadership roles, including Head of Sales UAE Commercial at Tyco Fire & Security and Senior Quantity Surveyor positions, contributing to the successful delivery of projects for high-profile clients including RAF Lakenheath, London Zoo, Crossrail, the University of Wolverhampton, and major data centre developments.

Lee's exceptional leadership qualities and analytical skills have been instrumental in the management of complex projects, commercial operations, and strategic business opportunities. His experience includes providing commercial oversight, procurement strategy, contract management, and technical support on complex engineering and mission-critical infrastructure schemes. As Owner and Managing Director of MPG Associates Quantity Surveyors in Abu Dhabi and Dubai, he successfully led a team of 70 professionals while maintaining a strong focus on operational excellence and client service delivery.

A holder of a BSc (Hons) in the Cost Management of Building Engineering Systems, together with numerous professional qualifications, Lee remains committed to continuous professional development and industry best practice. His career has been marked by significant contributions to commercial management, sustainable building practices, dispute resolution, and the successful delivery of technically complex projects, establishing him as a respected professional within the construction and infrastructure sectors.
