Bio

Robert Gaunt is a distinguished professional in the engineering and construction industries, with a robust background in claims management and dispute resolution. His extensive experience spans providing commercial and contractual advice, preparing and defending claims, and managing complex contractual issues for major projects. Robert has successfully handled a wide range of projects, including high-rise buildings, hospitality, entertainment, retail, mixed-use developments, and residential projects.

Throughout his career, Robert has developed a deep understanding of claims management processes, from inception to project closeout, and is adept at investigating complex issues for the preparation of EOT claims and variation disputes. His expertise in concurrency analysis and formal dispute proceedings has positioned him as a trusted advisor for senior management and board-level executives.

Robert's proficiency in providing high-level advice regarding project risk, claims management, and contractual compliance has been instrumental in resolving complex disputes. His ability to navigate the intricacies of site-based claims management and his in-depth knowledge of contracts and claims processes make him an invaluable asset to any project team. His commitment to excellence and meticulous approach to claims analysis and dispute resolution have earned him a reputation as a leading expert in his field.
