Bio

Philip Walker is an experienced disputes professional and forensic quantum expert with a strong background in international arbitration, claims management and contract advisory across major infrastructure and energy projects.

Currently operating at Director level, leading teams in resolution of complex disputes through negotiation, mediation, adjudication and arbitration. Has extensive experience acting as a quantum expert and claims consultant on high-value, multi-jurisdictional projects.

Career highlights include senior leadership roles within global consultancy and advisory firms, as well as client-side positions on major projects such as large-scale power generation schemes, infrastructure frameworks and the London 2012 Olympics. Demonstrates strong commercial leadership, strategic planning capability and expertise in managing complex contractual and procurement challenges.

Combines legal and commercial qualifications with decades of practical experience, providing clear, strategic advice to clients across the UK and internationally.
