Bio

Andrei Brăgaru is a renowned civil engineer with wide international experience in both the construction and engineering sectors. Specialising in construction claims, insurance claims, quantum analysis, contract and cost management, risk management, and quantity surveying, Andrei has established himself as a leading expert in navigating complex disputes in the construction industry. His exceptional ability to prepare and defend claims for contractors, subcontractors, and employers is grounded in his meticulous approach to the careful analysis of contract documents and project records.

Holding both a Bachelor's and Master's degree in Civil Engineering from U.T.C.B. in Romania, Andrei's professional qualifications are further enhanced by his active memberships in prestigious organisations, including the Chartered Institute of Building (MCIQB) and Quantity Surveyors International (MQSi). His extensive work experience spans across diverse regions such as Romania, the United Arab Emirates, the Kingdom of Saudi Arabia, Sultanate of Oman, the United Kingdom, and Rwanda, covering a wide range of sectors from commercial and residential developments to oil and gas facilities, infrastructure projects, and military facilities.

Andrei has been responsible for the coordination and preparation of detailed claims analysis for significant civil, infrastructure, and engineering projects, and is also an established delay expert witness. Fluent in English and Romanian, his broad geographical experience and comprehensive expertise equip him with the unique ability to guide clients through the intricacies of construction claims and contract management on a global scale.
