Bio

Samson Parker is an emerging talent in the field of construction and has completed his BSc in Quantity Surveying while working as an apprentice at MPG Quantity Surveyors Limited. Over the past few years, Samson has amassed a wealth of experience through his contributions to major construction projects such as Crossrail working on stations such as Whitechapel, Liverpool Street and Farringdon along with many other commercial / residential sites and Luxury London Residences. His responsibilities have spanned from on-site assessments to financial auditing, showcasing his adaptability and keen attention to detail.

Samson's academic background, including a BTEC Level 3 in Construction and the Built Environment and an HNC in Construction from London South Bank University, provides a solid foundation upon which to build his many practical skills. His proficiency in the use of Office 365, alongside industry-specific software, further complements his versatile skill set. Despite his career, Samson has distinguished himself through his speed of learning, excellent communication skills, and a proactive approach to problem-solving.

His work at MPG has not only involved assisting in the various aspects of quantity surveying but also in contributing significantly to the planning and execution of high-profile projects. As he progresses towards completing his degree, Samson Parker is poised to become a significant asset to the construction and quantity surveying industry, embodying a good blend of academic knowledge and practical experience.
