

Edward Webb

Civil & Structural Expert Witness

edward.webb@mpgqs.com

DD: +44 (0) 203 598 2504

A Edward Webb is a Chartered Civil Engineer with over 30 years of experience in civil and structural engineering across nuclear decommissioning, defence, rail, highways, marine, commercial, and process sectors. He specialises in project delivery leadership, structural assessment, safety case substantiation, and dispute resolution. Edward is an accomplished Civil & Structural Expert Witness with extensive experience acting on complex engineering disputes involving retaining wall failures, structural corrosion, and post-tensioned structural failures.

Membership

- Institution of Structural Engineers (IStructE)
- Institution of Civil Engineers (ICE)
- Fellow of the Institution of Civil Engineers (FICE)
- Chartered Civil Engineer (CEng)
- IStructE Professional Review Lead

Qualifications

- BEng (Hons) Civil Engineering with Project Management
- Chartered Civil Engineer (CEng)
- FICE, MStructE
- NEBOSH General Certificate in Health & Safety
- HSR(A) ICE Health & Safety Registered (Advanced)
- PTS Rail Card Holder
- SC Level Security Clearance

Areas of Expertise

- Civil & Structural Engineering
- Expert Witness Services
- Structural Assessment
- Design Management
- Project Delivery Leadership
- Nuclear Infrastructure Projects
- Rail Infrastructure
- Highways & Bridges
- Safety Case Substantiation
- Commercial & Marine Engineering
- Infrastructure Modification
- Dispute Resolution
- Construction Management
- Technical Authority Leadership
- Multidisciplinary Team Management

Bio

Edward Webb is a seasoned Chartered Civil Engineer with over 30 years of experience delivering complex infrastructure and engineering projects across the nuclear, defence, rail, highways, marine, and commercial sectors. His expertise includes structural assessment, design management, safety case substantiation, infrastructure modification, and dispute resolution.

Throughout his career, Edward has held senior leadership positions including Project Delivery Director, Technical Authority Lead, and Framework Manager. He has successfully managed multidisciplinary engineering teams, major infrastructure schemes, and high-value design-and-build projects while maintaining strong stakeholder and client engagement.

Edward has worked on significant projects for organisations including AWE, Sellafield, Magnox, Dounreay, Thames Water, Morgan Sindall, Doosan Babcock, and James Fisher Nuclear. His experience includes structural engineering assessments, BIM delivery, bridge maintenance programmes, nuclear infrastructure modifications, and technical assurance within highly regulated environments. He is also an experienced Civil & Structural Expert Witness with appointments involving retaining wall failures, structural steel corrosion, and post-tensioned structural failures for both public authorities and major contractors.

Edward is recognised for his technical leadership, practical engineering expertise, and ability to successfully deliver complex engineering solutions across the UK and Europe.
